IMPORTANT: Please do not apply until you have made certain you have money available to pay for your accommodation and living expenses. Much time has been wasted by applicants who wait until they have been accepted for enrolment and then begin looking for means to finance themselves! This prolongs the process, incurs unnecessary administrative costs and delays the enrolment of those whose finances are in order! Your co-operation in this matter will be much appreciated. Please note that whilst it is possible for U.K. students to obtain assistance, overseas students must apply for educational grants etc., in their own countries.
